c. Each Residence shall include at least an attached two-car garage.

Section 4.

Approval of Plans and Post-Construction Changes.

a. No Residence or Exterior Structure may be erected upon any Lot unless and until the building plans, specifications, exterior color scheme, materials, location, elevation, grade and landscaping thereof have been submitted to and approved in writing by the Developer or, in the case of delegation of such approval power by Developer as provided herein, the Board of Directors of the Homeowner's Association. No structures of any kind shall be moved onto any Lot. Nor shall any change or alteration in such building plans, specifications, exterior color scheme, materials, location, elevation, grade and landscaping thereof be made until such change or alteration has been submitted to and approved in writing by the Developer, or its designee. Nor shall any change or alteration in such elevation, grade and landscaping be made unless such change or alteration is in conformance with Council Bluffs, Iowa, Zoning Ordinances.

b. Following the completion of construction of any Residence or Exterior Structure, no exterior colors or landscaping thereof or with respect thereto shall be changed and no exterior additions or alterations to any structure shall be made unless and until the changes have been submitted to and approved in writing by the Developer, or in the case of delegation of such approval power by Developer as provided herein, the Board of Directors of the Homeowner's Association. All replacement of all or any portion of a structure because of age, casualty loss or other reason, including, without limitation, roofs and siding, shall be of the same material as the original structure unless the changes have been submitted to and approved in writing by the Developer or, in the case of delegation of such approval power by Developer as provided herein, the Board of Directors of the Homeowner's Association.

c. No building, fence, wall or other structure, shall be commenced, erected or maintained upon a Lot, nor shall any exterior painting, resurfacing, addition to, change or alteration therein, be made until the plans, specifications, and plot plan showing the size, nature, kind, shape, height, materials and location of the same have been submitted to and approved in writing as to harmony of external design, color and location in relation to the surrounding structures and topography by the Developer, or its designee.

d. All such plans and specifications shall be submitted to the Developer at its Council Bluffs, Iowa, office. The subdivision is composed of in part of twenty four (24) building Lots, which have been developed expressly for residential purposes and the construction of Residences. The primary purpose of design and other controls is to protect and preserve the value of the Residences in FOREST RIDGE SUBDIVISION for the benefit of both the individual Lot Owners and the public in general. These controls are not to be viewed as a means for suppressing expressions of individuality or as a mere land restriction. A secondary purpose of the design and other controls is to protect the Developer's financial investment in the unsold Lots.

e. Each individual Lot Owner is to take all steps necessary to reasonably and adequately regulate the drainage from their Lot and to control unreasonable and undesirable erosion.

f. The construction and landscaping of each Residence shall be completed within twelve (12) months from the date the construction of the Residence's foundation is

commenced. Excess dirt resulting from excavation done on any Lot shall be hauled from the Lot or used in landscaping the Lot within the construction time period. All excavation or alteration of the existing topography and native growth will be done in a manner such that the natural drainage or designated drainage is not altered to such an extent that unreasonable or undesirable drainage or erosion results. Improvements not so completed, or upon which construction has ceased for ninety (90) consecutive days, or which have been partially or totally destroyed and not rebuilt within ninety (90) days shall be deemed nuisances. Developer or the Homeowner's Association may remove any such nuisance or repair or complete the same at the cost of the Lot Owner.

g. Construction of the Residence on the Lot shall commence not later than sixty (60) months after the initial conveyance of title from the Developer to Lot Owner. This period of sixty (60) months shall be binding upon subsequent purchasers of any Lot, and shall run from the initial conveyance from the Developer and shall not be extended without the written consent of the Developer or its designee. If construction is not commenced within sixty (60) months after the initial conveyance of title from the Developer, then Developer shall have the right, at its option, to repurchase the Lot from the Lot Owner for the original price Lot Owner paid to Developer for the original purchase, less ten (10) percent of the total original purchase price. Developer may exercise this option at any time after the expiration of sixty (60) months from the date of the initial conveyance of title from the Developer, so long as construction has not been commenced. Additionally, Developer shall have the first right of refusal to purchase any Lot if the Lot Owner desires to sell such Lot within the sixty (60) months following the initial conveyance from Developer. During this period, Lot Owner shall give Developer immediate written notice of any accepted offer to purchase the Lot, and Developer shall have thirty (30) days after the date of the Notice to exercise its first right of refusal hereunder, by tendering its offer to purchase to Lot Owner, on substantially the same terms and conditions of the prior accepted offer. If Developer does not exercise this first right of refusal to purchase within the thirty (30) day period, this right shall terminate and Lot Owner may proceed to sell the Lot pursuant to the prior accepted offer. All options and first rights of refusal hereunder shall terminate upon completion of construction of the Residence on the Lot.

h. Material and equipment used during the construction and landscaping process will be stored and maintained on the Lot in an orderly manner and discarded materials, rubbish and unneeded equipment will be removed from the Lot weekly. Construction and landscaping activities will be confined to the Lot on which the construction is in process.

i. No boat, camping trailer, auto-drawn trailer of any kind, mobile home, truck, commercial van, aircraft, grading or excavating equipment, or any other portable vehicle, shall be stored, repaired, or routinely parked on the streets of the subdivision as shown by the Plat. Each Lot Owner shall provide off-street parking to adequately meet his or her needs and, in any event, off-street parking for two automobiles, shall be provided in addition to the attached garage space.

j. If a Lot Owner intends to hold title to any Lot without constructing a Residence thereon, the Lot Owner shall first obtain the approval of the Developer, or its designee, to avoid compliance with paragraph "g" of this Section.

k. Approvals and/or consents required by these covenants shall be solely the function of Developer. Developer may, at its option, delegate all or any part of the function of control to the Board of Directors of the Homeowner's Association. If such delegation is made,

control shall be the function and obligation of the Board of Directors of the Homeowner's Association, and it may not be delegated to a separate control committee or other similar group. Any such delegation by Developer of all or part of its control function to the Board of Directors shall not be effective unless done in writing and signed by a person authorized to act on behalf of Developer.

Section 5.

Building Material Requirements; Utilities, Service and Access.

a. Building Material Requirements. Exterior walls of all buildings, structures and appurtenances thereto shall be made of brick, stone, wood shingles, wood siding, glass blocks, or any combination thereof. a. Except as otherwise provided in Article 3, Section 1 above, no Residence or Exterior Structure shall ever be placed, erected or used for business, professional, trade or commercial purposes on any Lot, provided, however that this restriction shall not prevent a Lot Owner from maintaining an office area in his or her residence which is not his or her principal place of business.

No noxious or offensive activity shall be carried on with respect to any Lot or in the Common Areas, nor shall any trash, ashes or other refuse be thrown, placed or dumped upon any Lot or in the Common Areas or be permitted to accumulate or remain on any Lot or in the Common Areas, except such compost facilities as may be approved by Developer, or its designee, in writing, nor shall anything be done which may be or become an annoyance or a nuisance to the neighborhood, including but not limited to mechanical work on automotive or other equipment of any kind. No Lot Owner shall use, suffer or permit any person or persons in any manner whatsoever, to use Owner's Lot or the Common Areas for any purpose which will constitute an unreasonable and improper invasion upon the quiet use and enjoyment of any other Lot Owner's property. Each Lot Owner shall maintain Owner's Lot in a clean and wholesome condition and all health and police regulations shall in all respects and at all times be fully complied with by the Lot Owner so as to prevent noxious and offensive activities or conditions which could constitute a public or private nuisance.

Section 7.

Maintenance of Lots.

a. All Lots, whether occupied or unoccupied, and any improvements placed thereon shall at all times be maintained in such manner as to prevent their becoming unsightly, unsanitary or a hazard to health. If not so maintained, Developer or the Homeowner's Association shall have the right, through its agents and employees, to do so, the cost of which shall be added to and become an assessment to which such Lot is subject.
